Dear Milton Madison Consulting Parties:

Pursuant to 36 CFR Part 800.6(3), the Kentucky Division Office of the Federal Highway Administration (FHWA) has prepared the attached 800.11(e) Report for the following project:

**Replacement of the truss superstructure on the
US 421 Milton-Madison Bridge over the Ohio River
Between Jefferson County, IN and Trimble County, KY
FHWA Project MPM-112-0421-B001
KYTC Item Number 5-135.80
INDOT Project Number 0501151**

We find that the Superstructure Replacement with Minimal Approaches Alternative will result in an adverse effect on the US 421 Bridge as the superstructure will be removed. There will be no adverse effects on any other historic property.

We are preparing a Memorandum of Agreement (MOA) to address adverse impacts on the US 421 Bridge. The MOA will also detail commitments by the FHWA to avoid, minimize and mitigate impacts to historic resources.

Please provide any comments on our determination within 30 days. If you have any questions you may contact me at (502) 223-6728.

Sincerely yours,

Gregory D. Rawlings
Transportation Specialist

Enclosure (1) 800.11(e) Report
