

### **Milton-Madison Bridge reduced to one lane August 13th**

LOUISVILLE, KY (July 30, 2010) — The Milton-Madison Bridge, which carries US 421 across the Ohio River from Milton, KY to Madison, IN, will be reduced to one lane on Friday, August 13th from 9:00 a.m. until 3:00 p.m. Engineers from the Kentucky Transportation Cabinet (KYTC) will be monitoring items on the bridge that were highlighted in the 2009 in-depth inspection.

This spring, the Cabinet implemented an in-house 2 month inspection frequency to review these locations and make sure repairs are not warranted. The goal is to keep the Milton-Madison Bridge operational until its closing during the super-structure replacement project.

The lane closure is subject to change due to inclement weather and other unforeseen delays. Dial 511 or visit [511.ky.gov](http://511.ky.gov) for the latest in traffic and travel information.
